Education

Maulana Azad National Institute of Technology, Bhopal <i>M.Tech in Computer Science and Engineering, CGPA: 8.73</i>	Aug 2023 – Jun 2025
University College Of Engineering and Technology, Hazaribagh <i>B.Tech in Information Technology, 81.33%</i>	Aug 2019 – Jun 2023

Experience

JG University , School of Engineering <i>Assistant Professor , CSE AIML</i>	July 2025 – Present
---	---------------------

- Teaching Crucial Subjects like Discrete Mathematics, Operating System, Web Technology, Algorithm Design and Analysis
- Giving Training for Campus Placement and Content Review
- Handling Placement and Tech Team of Btech Students

Wabtec Corporation <i>Software Development Intern</i>	Sept 2024 – June 2025
---	-----------------------

- Designed LabVIEW UI for message communication over ITCMP, Class D, and EMP protocols.
- Built 8000-series messaging for remote communication between DPM and Backoffice.
- Developed socket-based C++ client-server architecture.

Pantech E-Learning <i>ML and AI Intern</i>	Apr 2023 – May 2023
--	---------------------

- Built CV detection models and worked on NLP/brain tumor detection using imputation/classification.

The Sparks Foundation <i>Data Science Intern</i>	Mar 2023 – Apr 2023
--	---------------------

- Analyzed bank datasets; visualized growth, credit ratio, and loan performance using dashboards.

Projects

Shoe Shine – Full Stack E-Commerce Web App <i>React.js • Flask • SQLite • Netlify • Render</i>	April 2025– June 2025 https://shoes-shine.netlify.app
--	--

- Built a dynamic shoe shopping platform with React (frontend) and Flask (backend), using SQLite as the database.
- Integrated AI-based advisor, shoe personality quiz, cart, wishlist, login/signup, and invoice download features.
- Deployed frontend via Netlify and backend via Render for a fully accessible live shopping experience.

Fake News Detection BERT + LSTM — LIAR Dataset	May 2024 – Dec 2024
--	---------------------

- Achieved 91.6% recall using BERT + LSTM with embedding and encoder transformer models.

Bitcoin Price Prediction LSTM + ARIMA — Streamlit	Jan 2023 – Jun 2023
---	---------------------

- Achieved 96.8% prediction accuracy for BTC prices; deployed using Streamlit.

Sentiment Analysis Amazon & IMDb Reviews	Jan 2024 – Mar 2024
--	---------------------

- Performed NLP-based analysis using semantic techniques, NEP, and word embeddings.

Technical Skills

- Languages: C++, C, Python, SQL
- Libraries: Pandas, NumPy, TensorFlow, Scikit-learn, LangChain, LLM
- Tools: LabVIEW, VS Code, Jupyter, Google Colab, Power BI, MS Excel
- Concepts: DSA, OOPS, NLP, DBMS, Socket Programming

Publications

Presented at CRM 2025 (Springer): *Enhancing Fake News Detection in Political Claims using High Recall BERT+LSTM Model*, SR University

Certifications

Machine Learning and Data Science Expert – GeeksforGeeks (GFG)

The Complete Intro to ML with Python – Udemy
